EXPERIMENT 5

Building Reports, Dashboards and Custom Pages in Zoho Creator

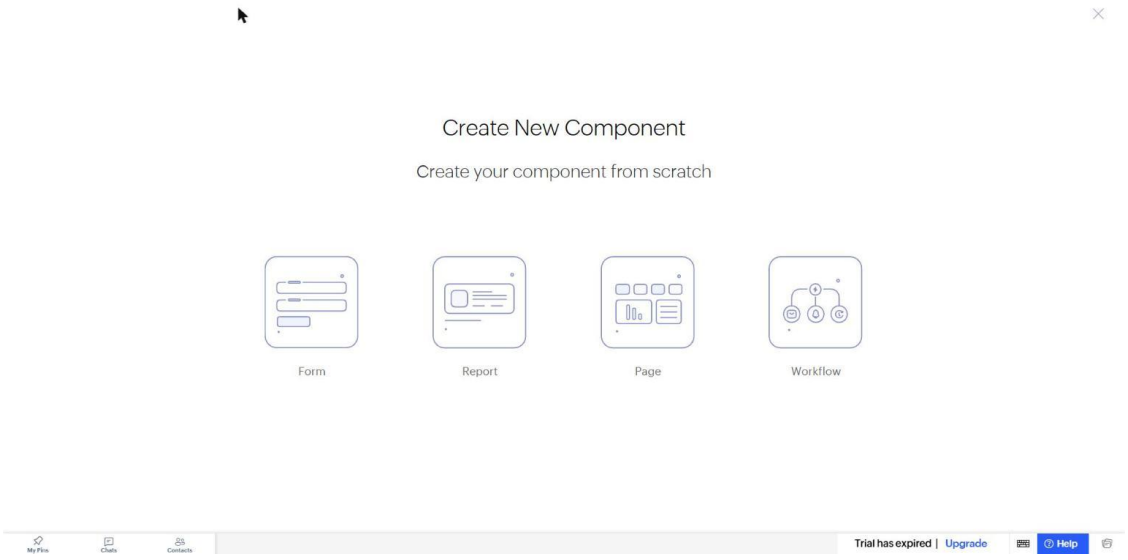

Application: Recruitment & Job Application Management

Aim

To build a report, a dashboard and a custom page using the UI Builder in Zoho Creator for the Recruitment & Job Application Management application.

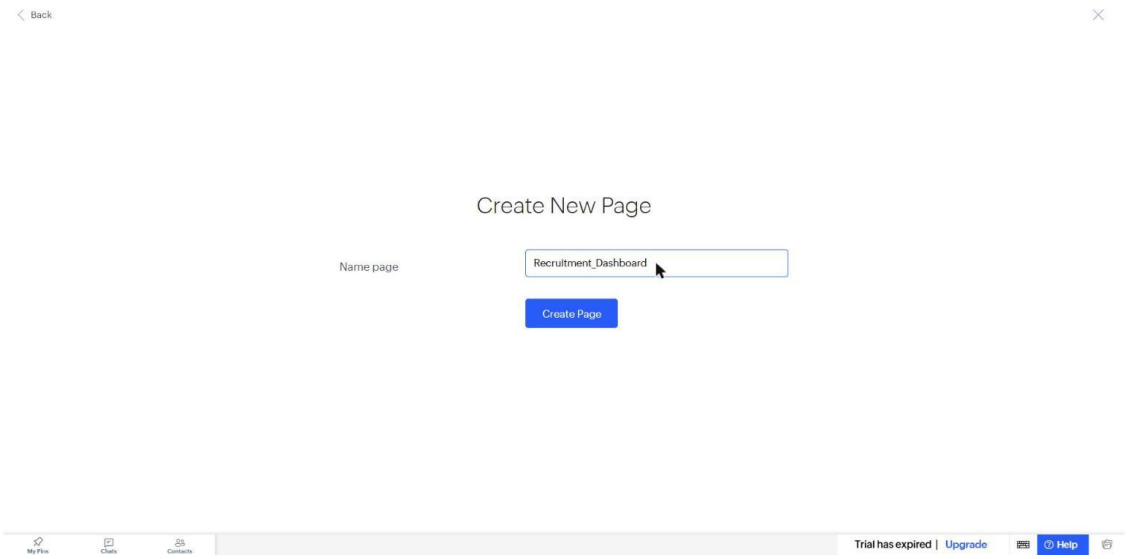

Procedure

1. Open the application **Recruitment & Job Application Management** in Zoho Creator and click the + button at the top. The Create New Component menu opens (Figure 1). A report named Candidate_Application_Report already exists for Job_Application_Form

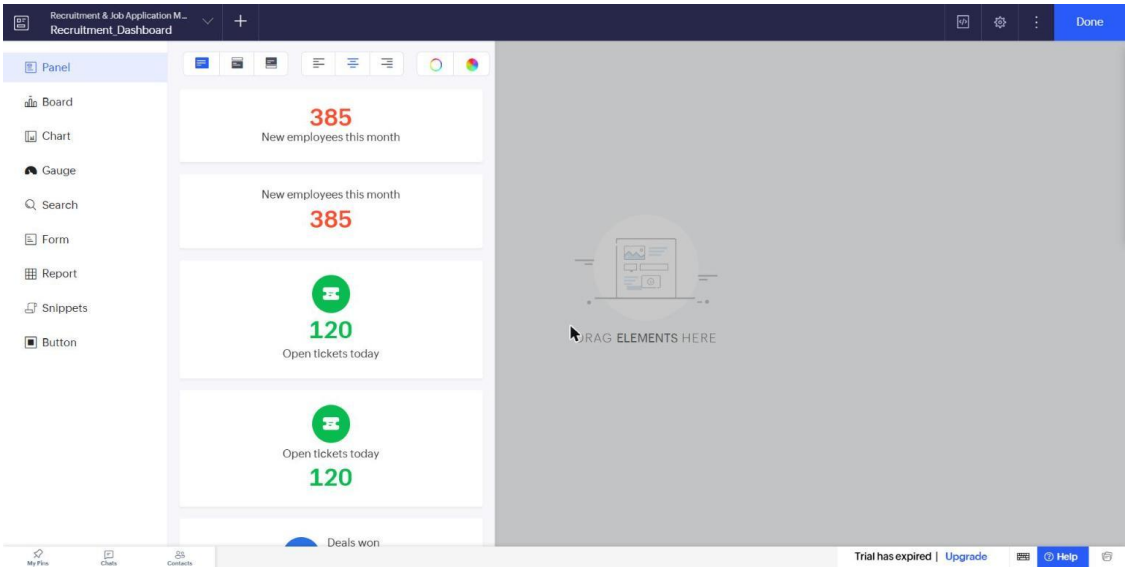

Create New Component menu

2. Choose **Page** and select a blank page. In **Name page**, type **Recruitment_Dashboard** and click **Create Page**

Page name entered

3. The blank page builder opens. The elements Panel, Board, Chart, Gauge, Search, Form, Report, Snippets and Button are listed on the left

Blank page builder

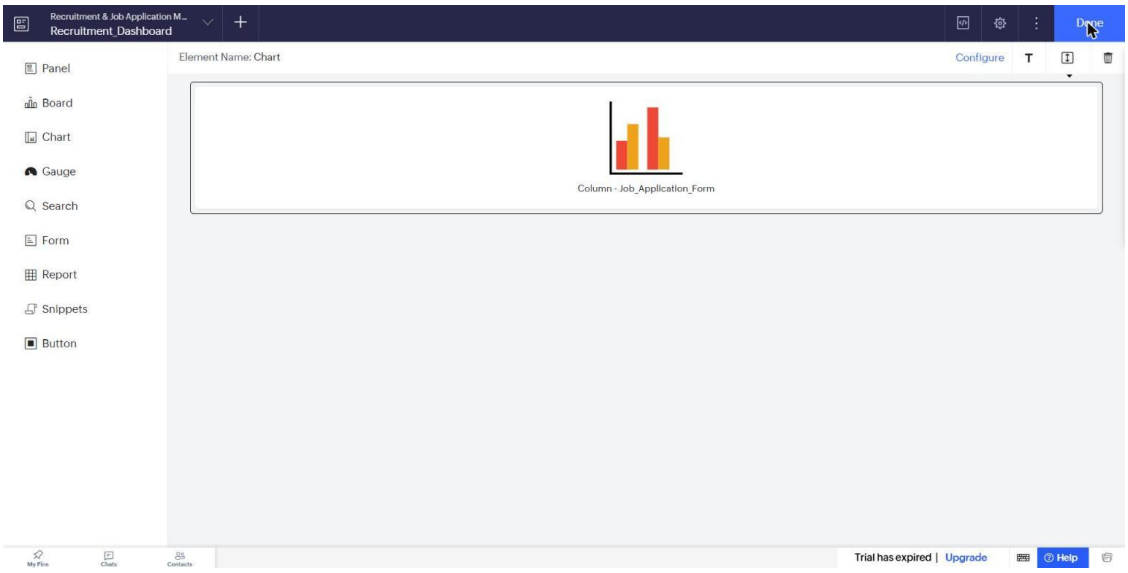

4. Drag the **Chart** element onto the page. In Chart Configuration, select the form **Job_Application_Form**. For the X-axis, set Category to **Department_Applied_For**

and Label to **Department**. For the Y-axis, use Aggregate with **Count of Contact_Number** Click **Done**.

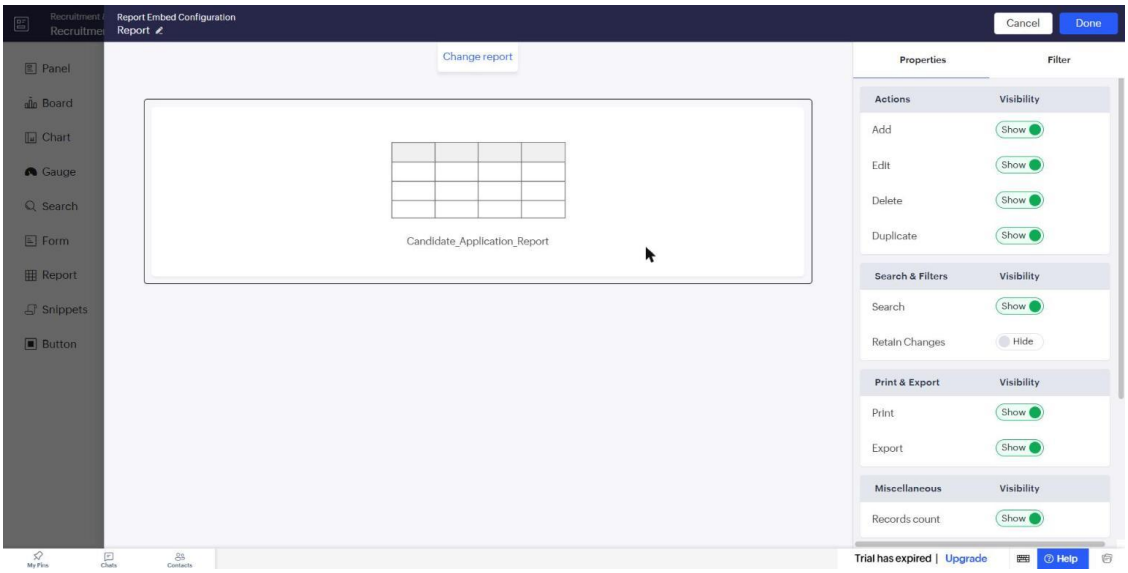

Chart configuration

5. The chart is placed on the page

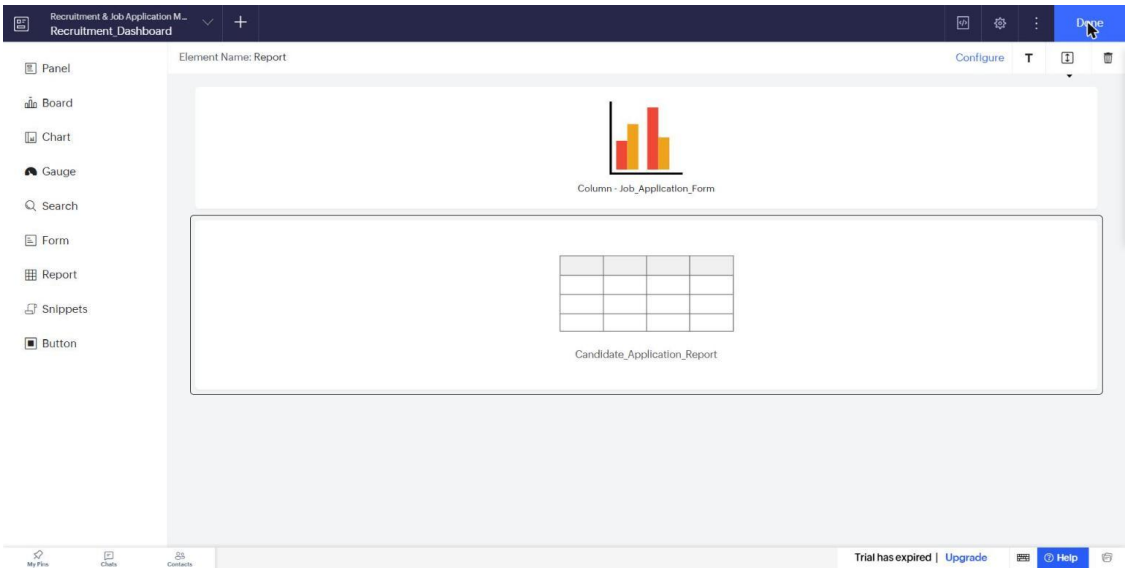

Page with the chart

6. Drag the **Report** element below the chart and select **Candidate_Application_Report**. The embed properties are shown .Click **Done**.

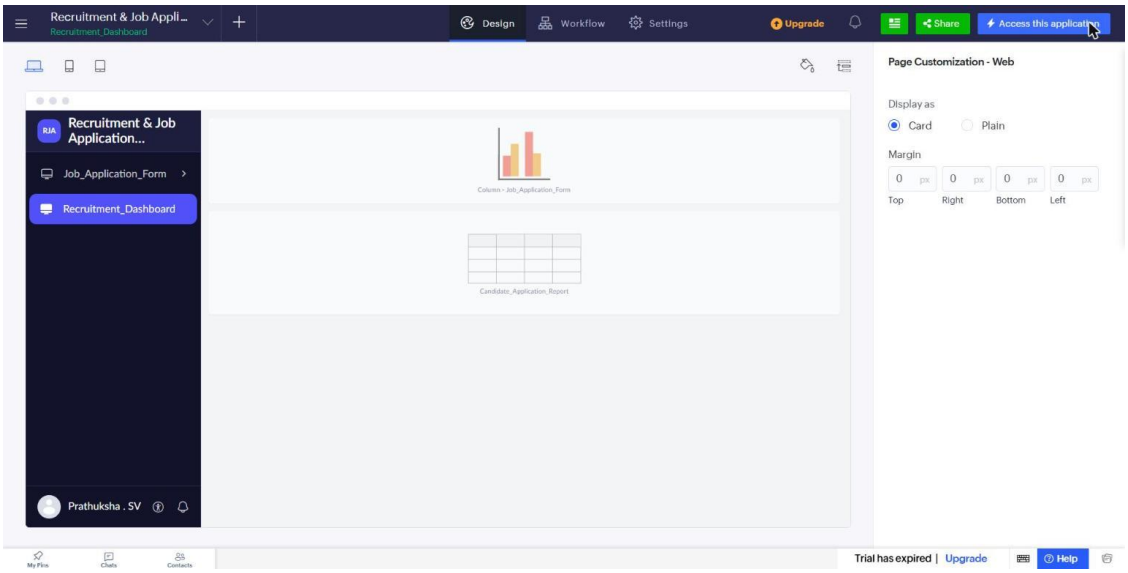

Report embed configuration

7. The page now holds the chart and the embedded report

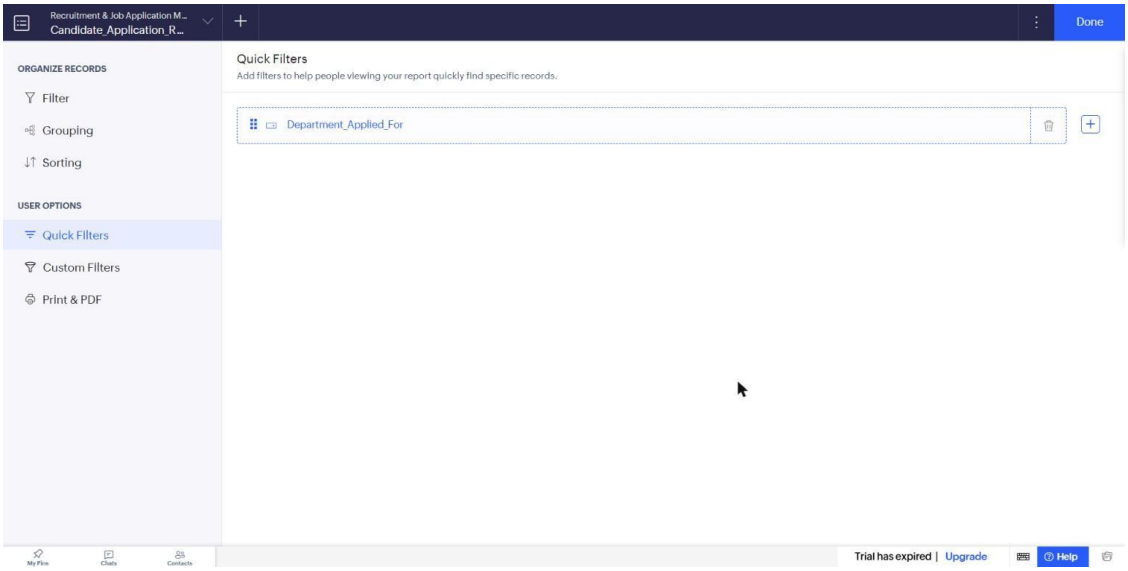

Page with chart and report

8. Click **Done** on the page builder. The page opens in the design view of the application under the name Recruitment_Dashboard

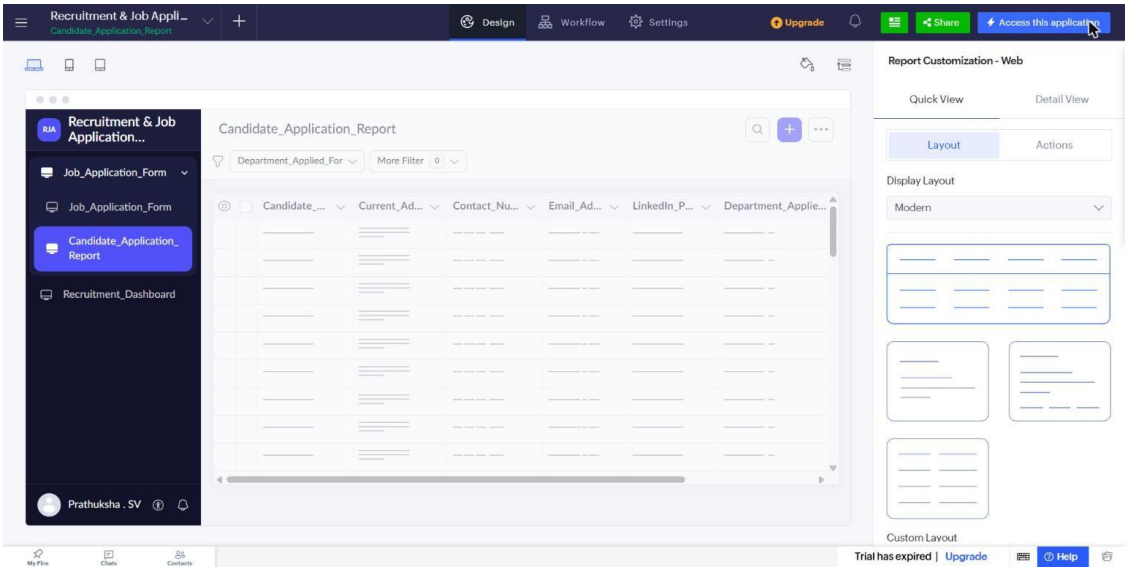

Recruitment_Dashboard in the design view

9. Open Candidate_Application_Report in the report builder. Under User Options, click **Quick Filters**, and add the field **Department_Applied_For** Click **Done**.

Quick filter added to the report

10. The report design view now shows the Department_Applied_For filter above the table

Report with the quick filter

Result

A page named Recruitment_Dashboard was created in the application. It contains a chart of Job_Application_Form (count of Contact_Number for each Department_Applied_For) and the embedded Candidate_Application_Report. A quick filter on Department_Applied_For was added to the report. The page, chart and report were checked in the design view of the builder. The live application could not be opened for a screenshot in this session, and no application record was submitted, so the chart and report were not viewed with data.
